

Explore 3D Art Using Wire

Elbow Community Centre

#1 Lakeside Road

August 11, 2025 - 1:00 to 4:00 PM

\$60 including all necessary tools and materials

To Register, email lee.fuller@sasktel.net

Wire sculpture is an easy and inexpensive way to discover three-dimensional art. You will learn three techniques for making wire art and be able to create figures (human and animal) as well as abstract creations. Wire sculpture is very versatile. You can pose your figures to show motion and emotion. Wire is a fun way to expand your creativity into three dimensions.

This class is suitable for ages 12 and older.

All materials and tools are provided. Some wire has an oily coating, so bring some light work gloves and wear suitable clothing.
