In accordance with the Village of Elbow **Dust Control Policy**, the option of dust suppression is being offered to residents throughout the Village. The following terms and conditions must be met in order to qualify to have the dust suppressant applied:

- For dust control **on your street**, coordinate with all the other residents on your street and they must each sign this agreement below. Costing provided by the dust control company and billed by the Village of Elbow.
- For dust control **just in front** of your property only, sign agreement below & note that in the requests section. Costing provided by dust control company and billed by the Village of Elbow.
- **An indemnity agreement (below) MUST be signed prior to receiving dust control.**
- *Sites treated may become rough or may develop potholes so if a road reaches a state where the condition of the driving surface poses a danger to the travelling public, the Village **may grade** and render the dust control ineffective.*
- This agreement shall remain in effect until **October** of the same year (road condition dependant).
- The location where the dust suppressant is to be applied; the measuring and staking will be done in consultation with the dust control company.
- If it is determined by the Village that the road requested is not in a condition to sustain dust control application, no dust control will be applied.
- Application is anticipated in spring (weather and contractor availability dependant).
- The cost calculation is based on the length and width and how many litres are put on each site, plus taxes (as determined by the dust control company).
- It is important to note that the road widths may vary, the same application rate/length/width ratio is applied and there may be overlap in the centre. Your invoice will reflect actual litres applied to your site.
